Kentucky's Horlacher and his rother were born at Frankfort, Ind., where they grew up on a farm and finished high school.

The parents, Mr, and Mrs. James L. Horlacher, are retired and live with a daughter in Kerrville, Texas Another brother is a jeweler, and their sister is the wife of a business

Both deans majored in animal husbandry, and all their teaching experience has been in this field. Both were members of the international livestock judging team the same year, the younger from Kansas and the elder from Purdue. Each now has two cheildren.

Helen Horlacher, daughter of the University dean, is a student in the agriculture college here. She won the Dansforth scholarship last year, entitling her to a month's training in leadership camp.

Our Dean Horlacher received his S. at Purdue, and M. S. at the University of Chicago, where he did graduate work.

A swarm of Georgia Tech Yellow Jackets, past masters in the art of football sleight of hand, ended Kentucky's unbeaten six game spurt with a stinging 13-6 win Saturday before 26,000 fans on sun-seared Grant field.

Compared to the style that brought a 7-7 dog-fall with Alabama a week before, Kentucky was as far off form as a

four slded triangle. But even more apparent than the Cats' relapse was quick-kicked dead on the Kentucky the fact that Tech had a fine team; one capable of giving any eleven a stormy afternoon. The Jackets line was returned 17 yards to the showed themselves to be a typical Cat 34 and a 9 yard pass set the Bill Alexander coached team with stage for the first touchdown. There's

No Great about Cigarette Tobaccos

THERE ARE FOUR TYPES

of tobaccos found in the more popular cigarettes, namely... Bright, Maryland, Burley and Turkish.

ALL THESE TOBACCOS except Turkish (which is bought direct from the planters in Turkey and Greece) and Maryland (which is bought through sealed bids under government supervision) are bought at public auction, just like any other auction where you might have bought in a table or a chair.

AT THE AUCTION SALE the tobacco is piled in baskets weighing from about 100 to 500 pounds and each purchaser buys all of his tobaccos by competitive bidding for the particular piles he wants.

THE CHESTERFIELD BUYERS buy the best of these mild ripe tobaccos for the Chesterfield blend. And it is Chesterfield's Combination . . . the right amounts of Burley and Bright ... just enough Maryland ... and just enough Turkish—that makes the big difference between Chesterfield and other eigarettes.

IT IS BECAUSE of this combination that Chesterfields are COOLER, have a BETTER TASTE and are DEFINITELY MILDER. They are made of the world's best cigarette tobaccos. You can't buy a better eigarette.
